- Terrain description:** Haunstrup plantation is a former moor coal area characterized with several high sandy hills, some covered with vegetation with different runability others are open with large sand areas. In the northern part of the plantation there are several open grass areas. To make it possible to read all contours 401 Open area has been used for the sandy areas. The plantation has a well developed system of roads, paths and MTB tracks.

- Map** Haunstrup Plantation 1:7.500 (H/D60+) & 1:10.000
Revised in 2022
Contour intervals 2.5 m
